**MSD Notice of Construction Completion  
DORCHESTER AVENUE – ALVIN STREET SEWER REPLACEMENT  
In City of Cincinnati, Hamilton County, Ohio**

Cincinnati, July 18, 2006 - Under a contract managed by the Metropolitan Sewer District of Greater Cincinnati (MSD), Howell Contractors, Inc., substantially completed the Dorchester Avenue – Alvin Street Sewer Replacement project on June 8, 2006.

The project replaced a deteriorated combined sewer involving the installation of approximately 1,734 feet of 12" to 30" diameter combined sewer. Construction occurred on Dorchester Avenue between Ryan Avenue and Highland Avenue, on Alvin Street from Dorchester Avenue to north terminus, and on Ryan Street from Dorchester Avenue to 100 feet north. Construction also occurred off street pavement between Alvin Street and Young Street with a small amount of work west of Young Street. The construction cost of the project was \$1,537,850.

This project is part of MSD's ongoing Capital Improvement Program (CIP), which is focused on continually updating and improving the operation of MSD's wastewater collection and treatment systems.

Every day, the Metropolitan Sewer District of Greater Cincinnati (MSD) manages the effective collection and treatment of more than 200 million gallons of wastewater and actively maintains 3,000 miles of sanitary and combined sewers that run through the 49 municipalities and townships of Hamilton County. Owned by Hamilton County and operated by the City of Cincinnati, MSD is committed to continually maintaining and improving its wastewater collection and treatment systems for the betterment of both public and environmental health.
